

## Project Design Phase-I Solution Architecture

Date	07 October 2022
Team Mentor	Mr. Thanigaivel G
Project Name	A Novel Method for Handwritten Digit Recognition System
Team Members	Gowthamen Raj R Hareesh R Hemesh M Eashwar Karthick V

### Solution Architecture:

Solution architecture is a complex process – with many sub-processes – that bridges the gap between business problems and technology solutions. Its goals are to:

- Find the best tech solution to solve existing business problems.
- Describe the structure, characteristics, behavior, and other aspects of the software to project stakeholders.
- Define features, development phases, and solution requirements.
- Provide specifications according to which the solution is defined, managed, and delivered.

### Example - Solution Architecture Diagram:

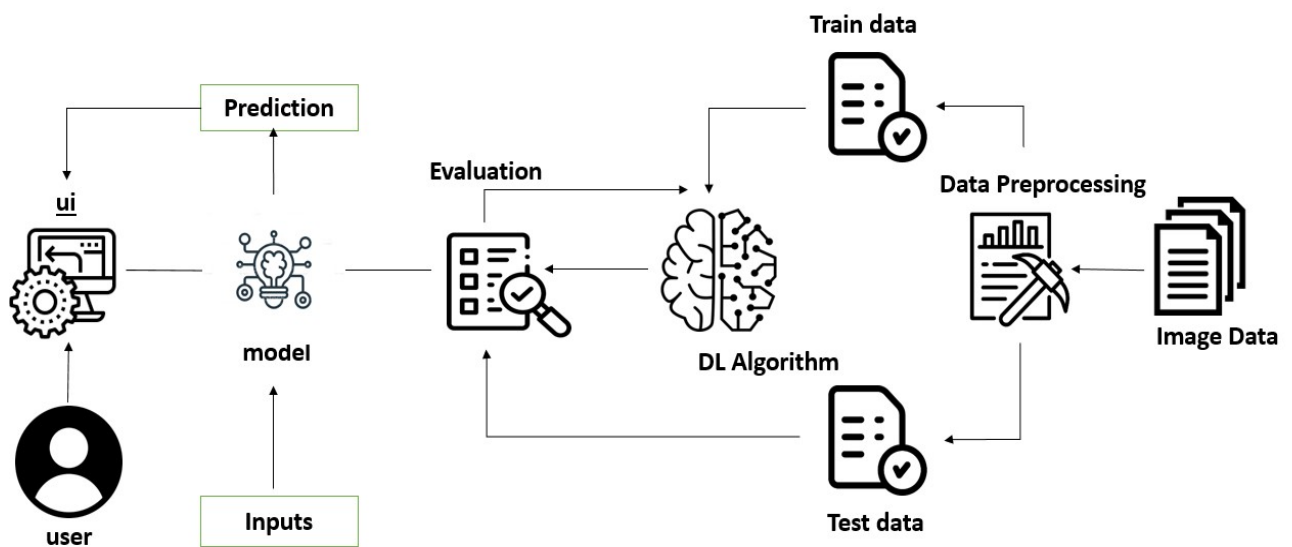

Figure 1: Architecture and data flow of the Handwritten Digit Recognition model.
